FULL YEAR SUMMARY 22

GLOSSARY 23

Foreword

In 2022, the Civil Service focused on establishing its new post-pandemic norm, striving to incorporate lessons learned and new initiatives into our ongoing business of delivering exceptional service.

During the year, the Civil Service began work to “refresh” the Cayman Islands Government 5-Year Strategic Plan, to recalibrate our strategy following the disruption caused by the global pandemic. Additionally, a programme of work commenced to enhance the Civil Service’s HR systems, including the launch of the e-recruitment platform (www.careers.gov.ky), which introduced an online application process for all roles across the Civil Service.

This 2022 Annual HR Report provides an opportunity to reflect on highlights of our people management strategy and workforce planning activities. It also allows the public an overview of the talent that is deployed across the Civil Service and wider Public Service. In 2022, significant changes included:

- An overall increase in the size of the Public Service, with increases in the size of both the Civil Service and Statutory Authorities and Government Companies of 1.7% and 1.4% respectively, bringing the total size of the Public Service to 7,275 employees.
- The Civil Service spearheaded a number of historic events that marked the year, including activities in honour of Her Late Majesty the Queen, and events marking the 50th anniversary of the Parliament building.
- In the area of reward and recognition, June, July and August saw the payment of \$150 monthly stipends to support civil servants in the face of unprecedented inflation which came about as a result of the global fuel crisis. In September 2022, the rise in the cost of living was recognized with a 2% Cost of Living Adjustment across the Civil Service. In December, the Civil Service took an additional step to permanently increase salaries by awarding a one-point salary grade increase, equivalent to approximately 2.5%, for most employees.
- Employee engagement results saw the Civil Service increase its overall engagement score to 73%, a 1% increase over the prior year. Over the 9 major areas of engagement, the results either increased or remained steady compared to 2021.

As the Public Service looks to 2023, we will continue to deliver services and solutions at pace, in order to meet our commitment to ***make the lives of those we serve better***. It is our goal to operate at optimal levels so that we can continue to provide a world-class experience across the Public Service.

Gloria McField-Nixon
Chief Officer, Portfolio of the Civil Service

Report Description

This annual report contains information about key statistics and trends impacting human resources within the Civil Service and the wider Public Service. It serves to inform Human Resources (HR) practices within the Civil Service and to educate the wider public on key trends.

Section one (page 2-3) provides information on the demographics of the Public Service, (which includes the 24 Government Owned Companies and Statutory Authorities and the Parliament Management Commission) as of 31st December 2022, compared to previous reporting periods.

Section two (pages 4–14) provides information on the demographics of the core Civil Service as of 31st December 2022, addressing a range of issues including the size of the service and Caymanianisation of the workforce at both Ministry/Portfolio and Departmental levels.

Section three (pages 15–21) provides information on a range of human resources activities such as recruitment, retention and employee engagement

Full Year Summary (page 22) provides a one-page overview of the key statistics from the report for the Public and Civil Service.

Glossary (page 23) provides a description of the main terms used in the report.

The report presents data relating to different aspects of human resources management, with a brief accompanying commentary on the data.

Data relating to the Civil Service has been taken from the Cayman Islands Government's central HR database (HR-IRIS). Statistics relating to the wider Public Service have been compiled from self-reported data provided by each respective Statutory Authority and Government Owned Company.

This report is presented to Cabinet, tabled in Parliament and, in accordance with the Freedom of Information Law, published electronically on the website for the Portfolio of the Civil Service at <http://www.pocs.gov.ky>

Annual HR reports were produced each calendar year between 2002 and 2007. From 2007/08 through 2015/16 the HR reporting period changed to reflect the fiscal year which ran from 1st July to 30th June. The 2016/17 budget covered an eighteen-month period from 1st July 2016 to 31st December 2017, to facilitate aligning the financial year with the calendar year from 1st January 2018. From 2018 the annual report reverted to the calendar year to reflect this new fiscal reporting period.

Statutory Authorities/Government Owned Companies % Caymanian Employees

The Public Service of the Cayman Islands is comprised of employees from Statutory Authorities, Government Owned Companies, the Parliament Management Commission and the Civil Service. At the end of 2022, the number of Caymanians employed within the Public Service was 5,197 which represents 71% of the Public Service.

The representation of Caymanians within Statutory Authorities and Government Owned Companies has been decreasing over the last few years. Representation of Caymanians in the SAGCs as at 31st December 2022 was 72.1% (December 2021: 73.6%). Individual Statutory Authorities and Government Owned Companies do vary in the proportion of Caymanians they employ and the table above shows the employment level of Caymanians within each organisation.

The Children and Youth Services Foundation has the lowest proportion of Caymanian employees (42.9%), while 6 organisations had a completely Caymanian workforce as at the 31st December 2022 (December 2021: 7). Of the 25 Statutory Authorities or Government Owned Companies, there were 20 with three-quarters or more of their workforce comprising Caymanian employees as indicated by the green shading in the table above (December 2021: 18).

The size of the Civil Service has fluctuated over the last two decades in response to changes in demand for services, public policy and the transformation of departments into Statutory Authorities. The table above provides a snapshot of the size of the Civil Service during this period, represented on the graph by the purple trend line and right hand axis information.

In 2008, in response to the global recession a recruitment moratorium was adopted. Between 2008 and 2015 there was a decrease in the size of the Civil Service. However; over the last 7 years there has been a reversal of this trend. During 2022, the Civil Service increased in size by 73 or 1.7%. A more detailed breakdown of the departments contributing to this change is provided on page 6.

Since 2004 the percentage of Caymanian employees has remained over 70% (represented on the graph by the dark blue bar graph) with the highest representation, at 74.3%, being reported in June 2016. Increased hiring within the Department of Education and the Police, to professions where Caymanians represent less than half the workforce, has contributed to the decreases reported during the last few years.

The Cayman Islands population estimates from the Economics & Statistics Office Compendium of Statistics (2022) are shown in orange providing a comparison against which the Service can be bench-marked. It shows that since 2002, the proportion of Caymanians within the Civil Service remains significantly higher than that of the estimated total population nationally.

	Caymanian		Non-Caymanian	
Total Civil Servants	71%	3174	29%	1296
Average Annual Salary	\$	54,910	\$	61,626
Chief Officers (Including Acting)	80%	16	20%	4
Heads of Department (Including COs & Acting)	83%	63	17%	13
2022 Promotions ^{*1}	75%	205	25%	67

As of the 31st December 2022, Caymanians represented 80% of Chief Officers and 83% of Heads of Departments which, in both cases, is slightly higher than the representation of Caymanians within the Civil Service as a whole.

During 2022, 75% of promotions within the Service were to Caymanians, slightly above the representation of Caymanians across the Service.

The average annual salary for Caymanians is \$6,716 per annum less than their non-Caymanian colleagues. Information on page 12 shows the the proportion of Caymanians versus non-Caymanians across the different grade bands, which provides insight into this variance.

^{*1} Details of the number and percentage of employee that received a pay award throughout the year can be found on page 15. The promotion data forms a subset of this information, relating to individual promotions (rather than decisions that are applied to groups of employees, such as increment awards and revaluations of job families).

Note: Demographics for the Civil Service contain a number of exclusions which are outlined in the Glossary on page 23. Notably, students employed on paid internships are excluded as are members of the Judiciary, Members of the Legislative Assembly, political appointments, the London Office and His Excellency the Governor.

As the size of the Civil Service has changed over the last two decades, so has the proportion of women within the Service. The table above provides a snapshot of the gender balance within the Civil Service from January 2003 until December 2022. Since 2005, the representation of females in the service has grown steadily higher than their male counterparts. The accompanying graph shows how the balance has moved from women forming 48% of the Service in 2003 to its present level of 56%. This represents a growth of 1002 women from the 1,490 employed in 2003. There has still been significant growth in the number of male employees in the same period (361), but this represents a smaller percentage growth.

The Cayman Islands population estimates from the Economics & Statistics Office Compendium of Statistics (2022) are shown as dotted lines, giving a comparison against which gender parity can be bench-marked.

	Female	Male
Total Civil Servants	56% 2492	44% 1978
Average Annual Salary	\$ 57,850	\$ 55,605
Chief Officers (Including Acting)	45% 9	55% 11
Heads of Department (Including COs & Acting)	43% 33	57% 43
2022 Promotions ^{*1}	51% 140	49% 132

In 2022, women represented 45% of Chief Officers and 43% of Heads of Departments, both of which was below their representations in the Civil Service as a whole.

Whilst women represent over half of the employees in grades F, H, I and J; grade H is the highest grade at which the representation in the grade is in line with the representation of women in the Service as a whole (56%).

The average annual salary for women is \$2,245 higher than their male colleagues. 51% of promotions in 2022 were received by women, lower than the representation of females across the Service.

Further information relating to the gender split of the Civil Service by grade is located on page 11.

* Age profiles for Civil Servants unavailable prior to 2004

The bar chart shows the number of employees within core Government as at 31st December 2022, across the various age ranges. The highest concentration of Civil Servants were in the 40-44 and 45-49 age ranges (both representing 13.9% of the Service). The average age of a Civil Servant within the Cayman Islands was 44 years, with the youngest employee being aged 17 and the oldest employee aged 76.

The normal retirement age for the Civil Service increased in September 2016 from age 60 to age 65. Civil Servants reaching retirement age may be re-employed subject to provisions defined in the Public Service Management Law and Personnel Regulations. The percentage of employees over age 60 (the former normal retirement age) had varied between 4.4% and 6.4% during the preceding 13 years. As of 31st December 2022, there were 130 employees (2.9% of the Service) over age 65, the current retirement age.

More detailed information regarding the age distribution of employees can be found on page 10, where the data is broken down by department.

The table above shows the number of Civil Servants within each department spread across various age ranges as at 31st December 2022. The largest group of employees is in the 40-49 age range (27.8% of the Service) with the 30-39 and 50-59 age-ranges each constituting almost another quarter of the Service each.

The shading on the right hand side of the table identifies the departments with an above average representation of Civil Servants over the normal retirement age, with the darker shading representing higher percentages of employees over 65 years old. Whilst 41 departments did not have employees over the normal retirement age, the Elections Office and National Archive each have more than five times the average percentage of employees aged 65 or above.

The two bar charts above show the proportion of each salary grade that female and male Civil Servants were paid on as at 31st December 2022. The solid lines show the percentage expected if the grades were uniformly distributed. There continues to be a larger proportion of Civil Service roles held by females, with the Service comprised of **56% female and 44% male**.

The table above shows that the 3 senior executive, falling within grades A & B, were held by men. These positions are the Deputy Governor, Financial Secretary and Attorney General.

For other organisational executives (predominantly falling within grades C to G), roles were equally held by females and male Civil Servants. Positions within grades C to G include; Chief Officer, Deputy Chief Officer, Head of Departments and Deputy Head of Department, amongst others.

Within the middle/junior management and specialist technical roles (predominantly found in grades H to K), the gender split was 66% female and 34% male. Teaching as a profession (grade K) has a disproportionately high female representation (77%).

Within the top and middle level operational roles (predominantly found in grades L to O), the gender split was broadly equal at 49% female, 51% male. Females dominated the lowest level support roles (grades P to R) representing 59% of the workforce in that category.

Male employees dominated the higher wage worker grades; where all employees at grades GFF to GDD were male (largely associated with roles in the specialist trades). Female employees made up 34% of wage workers in the lower grades GCC to GAA with male employees making up 100% of wage workers in the higher grades GDD to GFF.

The two bar charts above show the percentage of salary grades that Caymanian and non-Caymanian employees were paid on the 31st December 2022. When looking at the Civil Service as a whole, **Caymanian employees made up 71.0% of the workforce.**

The table above shows that the 3 senior executive roles, falling within grades A & B, were held by Caymanians. These positions are the Deputy Governor, Financial Secretary and Attorney General.

For other organisational executives (predominantly falling within grades C to G), Caymanians constituted 73% of employees in these roles, slightly higher than the average of the Civil Service as a whole. Positions within grades C to G include; Chief Officer, Deputy Chief Officer, Head of Department, Deputy Head of Department and others.

Within the middle/junior management and specialist technical roles (predominantly found in grades H to K) Caymanian representation was 54%. Teaching as a profession (grade K) has a disproportionately high representation of non-Caymanian (72%). In the lower salary grades (P-R), Caymanian representation was at 92%, and Caymanians also represented the majority (98%) of employees, in the wage worker pay grades (GAA-GFF).

This pattern may be explained in part by Ministries and Portfolios being less likely to recruit overseas for more junior roles within the Civil Service. Non-Caymanians tend to hold a higher proportion of posts in the mid-salary range, which are more likely to be specialist roles.

Tourism Department	2	40	42	4.8%
Education Department	2	865	867	0.2%
Total	123			

The 4 departments listed on the table to the left employed Civil Servants on wage worker terms and conditions as at 31st December 2022. District Administration has the majority of their staff contracted on this contractual arrangement (71%).

The Departments of Agriculture and the Department of Children & Family Services have both successfully transitioned the remainder of their wage workers to salaried terms and conditions during 2022.

During 2022, of the 498 new appointments to the Civil Service, 6.6% were appointed on wage-worker contracts. Further information relating to recruitment and appointments can be found on page 16.

Personnel Regulations state that an employee's wages or salary should be paid on a monthly basis **or in exceptional circumstances** on a bi-weekly basis. When the Public Service Management Law and associated Personnel Regulations came into effect in January 2007, the majority of contractual differences between salaried staff and wage workers were resolved.

The Civil Service by Employment Arrangements

Working Arrangements

As of the 31st December 2022, the majority of Civil Servants worked full-time, with only 2% of the Service being employed on part-time working arrangements. Part-time employees were employed across 14 different departments with the largest representation within District Administration (48%) and the Department of Education Services (21%).

Shift workers represented 26% of the Service by the end of 2022, with 30 departments reporting that they employed Civil Servants on shifts. The Police Service (34%), Customs and Border Control (16%), Prison Service (13%), and Fire Service (12%) together employed the majority of shift workers (75% of the 1166 employees working shifts).

Employment Agreement Type

Personnel Regulations outline the following tenure arrangements for employees;

- Caymanians should be placed on an "open-ended" tenure to their 65th birthday unless; the position/post undertaken has a finite life, the individual is over the compulsory retirement age (in which case it should be fixed-term for no more than 2 years) or when there are other good reasons not to do so.
- Non-Caymanian employees should have a fixed-term employment agreement of no longer than 3 years.

Note: A number of roles have terms and conditions outlined in other Laws or Regulations, such as the Police Commissioner who may be awarded a fixed-term contract of up to 5 years per contract or the Ombudsman who may be awarded a one-time fixed-term contract of 7 years.

The pie chart above shows the proportion of employees that held open-ended or fixed-term employment agreements as at 31st December 2022. 61% of the Civil Service were Caymanian employees on open-ended employment agreements, 29% were non-Caymanians on fixed-term employment agreements and 10% were Caymanians on fixed-term employment agreements.

In the pie-chart, the latter category has been split to show those Caymanian employees who were over 65 years old and holding 'compulsory' fixed term employment agreements (2.5%), and those with standard fixed term employment agreements (7.9%). The raise in retirement age (to age 65 in September 2016) and the subsequent requirement for individuals to re-join the pension scheme if under the new mandatory retirement age, either prior to or at the end of their current contract, has had some impact on this profile.

The Cayman Islands Government salary grades are split into salary points. Each grade contains between 5 and 13 individual points. Automatic annual increments have been frozen within the Civil Service since 2002. The salary scale in effect on the 31st December 2022 ranged between **\$20,808** (R point 1) and **\$239,604** (A point 5) per annum for salaried staff and between **\$10.45** (GAA point 1) and **\$22.92** (GFF point 5) per hour for Wage Workers.

The table above shows that the majority of the Civil Service were paid towards the lower end of the Government salary range **with 45.4% of the Civil Service earning under \$50,000 per annum**. However this is almost 8% less than the 53.7% reported in 2021, showing an increase in the percentage of staff in the higher brackets.

The largest group of Civil Servants (25%) earned salaries in the \$40,000 to \$49,999 range, (2021: 28%) with the \$50,000 to \$59,999 and \$60,000 to \$69,999 ranges being the next largest (17% and 19% of Civil Servants respectively).

The average full-time equivalent annual salary for the Civil Service as at the 31st December 2022 was \$56,857; an increase of **\$3,414** compared to the December 2021 average. This is the eighth consecutive year that an increase in average salary has been reported. This increase has been notably impacted by the Cost of Living Award of 2% effective September 2022 and the award of an increment to Civil Servants in December 2022 (broadly equivalent to 2.5% of base pay).

The provision of medical benefits and pension, without employee contribution, should be noted when making comparisons for overall remuneration packages for Civil Servants against other organisations; as these represent significant employee benefits.

By Point Placement

The Public Service Management Law and Personnel Regulations outline the authority of Appointing Officers to determine the point placement of individuals within a grade. A range of factors are considered, including experience and qualifications.

The table and pie-chart above summarise the position of employees within the salary scales for the Civil Service as at 31st December 2022. Some 73% of the Civil Service had a point placement that was less than or equal to the mid-point of the range; a 2% improvement on the same percentage to 2021 (75.4%). 2% of Civil Servants are on the lowest point (point 1) of their salary grade, a significant improvement on the 23% reported in 2021, predominantly related to the increment awarded during the year.

Within the Civil Service, 6% of employees were on the highest point of their range and a further 1% had an individual salary that was either outside of the salary scale or unaligned to a point within the salary scale.

Of the new hire appointments to the Service during 2022, 188 of the 498 appointments (38%) were made to point 1 of the salary grade (31% reported for 2021); whilst 397 appointments (80%) were made to point placements that were below the mid-point of the scale.

Civil Servants Annual Salary Changes

The adjacent graph shows the change in Civil Service remuneration during 2022 (based on a comparison of employee salaries as at 31st December 2021 and 31st December 2022).

91% of the Service, 4056 employees, received an increase during 2022 compared to 24% in 2021. The significant increase from the 2021 percentage is as a result of two major remuneration initiatives (COLA and increment award) combined with regular changes arising from promotions, roles being re-evaluated or grade adjustments being awarded.

0.5% of the Civil Service received a salary decrease during 2022 (0.2% 2021), largely associated with employees moving into roles on a lower grade. This may be in response to the introduction of phased retirement provisions in 2016, which provides additional flexibility for employees to remain with the Service on a part-time basis or in a lower graded role, while also receiving their monthly pension.

A further 9% of employees were new joiners to the Civil Service after the 31st December 2022, who consequently did not have data for comparison purposes.

Some employees who left before 31st December 2022 will also have received remuneration changes. These are not included in this data.

In addition to the substantive increases to the Civil Service remuneration package during 2022, in June, July and August, an honorarium of \$150 per employee per month was provided, in response to global fuel cost increases immediately impacting employees purchasing power. The honorarium was awarded to some 4,432 individual employees, costing in the region of \$1,947,000.

* Appointment figures reflect new hires to the Civil Service and consequently do not include internal appointments to different entities or the contract renewal of existing employees. Student interns that were employed for short-term (1-3 month) work experience and temporary contract appointments such as supply teachers appointed to cover interim appointments are excluded from the data. The same employee can be recruited or appointed more than once in a given year and each appointment is counted as a separate activity.

Recruitment by Location

Recruitment by Employment Type

Information in the table and pie-chart above show whether recruitment/appointment activity undertaken in 2022 was for individuals relocating from overseas or for current residents.

During 2022, 88% of all appointments were made for applicants who were **on-island** (2021 89%); with Caymanians constituting the largest group.

Of the appointments for non-Caymanian employees (202 in total), 70% were recruited on-island.

Note: The information excludes 86 student interns that were employed on short-term contracts during the Easter, Summer and Christmas school breaks throughout 2022, 100% of whom were Caymanian.

Information in the table and pie-chart above shows that during 2022, 93% of new hires were Salaried Staff with the remaining 7% being Wage Worker (paid an hourly rate within the GAA-GFF pay grades).

New Wage Worker appointments were solely made by District Administration, and included 31 Office Attendant III on short-term contracts.

It should be noted that District Administration operates an extended Internship Program to assist students during their "gap" year before continuing their education or permanently entering the work force.

This section provides an overview of recruitment/appointment activities during 2022. During the year there were 600 appointments to the Civil Service (713 in 2021), however 102 of these were to student interns (86) and temporary staff (16), who have been excluded from the more detailed analysis above.

Caymanians constituted 59% of all new recruits/appointments to the Civil Service during 2022, across a wide range of roles and grades. This is a little lower than the percentage of Caymanians in the Service (71%) but a larger figure than the percentage of Caymanians in the Working Age Population, which was reported in the latest ESO Compendium of Statistics (2022) to be 56%.

During 2022, 39 departments made non-Caymanians appointments. 57% of all non-Caymanians recruited to the Civil Service were within two departments; the Police Service accounted for 20% (40 appointments) and the Department of Education Services accounted for 37% (75 appointments).

During 2022 two non-Caymanian appointments were made to role in grade categories A-C, these were for the Director of Public Prosecutions and the Chief Medical Officer.

It should be noted that:-

(i) The above details do not form the full picture of attraction, retention and promotion of Caymanians within the Civil Service, as these figures do not take into account existing civil servants who have been appointed to new roles within Government. See pages 4 and 15 for related information on promotions during 2022.

HR Activity for the Civil Service for 2022 - Retention

Turnover Rate for the Civil Service 2003 to 2022

The annual turnover rate for the service has, over the last two decades, varied from a maximum of 14.8% reported in 2013/14, to a minimum of 5.6% experienced during 2020, when the impact of the COVID-19 restrictions were at their height. The annual turnover rate for the Civil Service for 2022 was **10.8%**, showing a continued increase over the last few years. A breakdown of how the various Departments contribute to the turnover rate of the Civil Service can be found on page 19.

The main reasons that Civil Servants leave the organisation are as a result of resignations (40%) and employment agreements coming to an end (40%). A similar number of non-Caymanians left the Service in 2022 as a result of resignations (41%) to those who reached the end of their contract (42%). Resignations and contracts reaching an end also form the majority of reasons why Caymanians leave employment (39%).

In 2022, 6.5% of employees left the service due to contracts not being renewed, of whom 58% were non-caymanian. A further 2% of employees were dismissed from the service, of whom 20% were non-Caymanian.

Some 40% of Caymanian leavers had less than one year service when leaving the Civil Service; this is partly related to the opportunities offered for Caymanians on Cayman Brac in short-term Office Attendant III roles and with Cayman Travel Time. Excluding these groups of employees from the information reduces the percentage of Caymanians leaving within one year to 21% which is a lower than the figure for non-Caymanians. The cumulative figures show that almost 51% of all leavers from the Cayman Islands Government have less than two years of service, somewhat higher than the 45% reported in 2021.

Note: Turnover trends for the Civil Service exclude Student Interns, PWD Apprentices and Supply Teachers, groups that are appointed on short-term or temporary contracts.

The table above shows how the various departments contribute to the overall Civil Service turnover rates. Those departments experiencing more than double the average turnover rate within the Civil Service are identified above in red text whilst turnover rates that are below half the Government average are identified in blue text.

Note: Several departments showing a high percentage of turnover are departments with very small numbers of staff.

*Based on leaver information for 2022 and the average number of employees at the end of each quarter

The table above shows the turnover rate by broad job classification. Figures shaded in blue represent categories where turnover is less than half of the Government average. During 2022 only Support Personnel has a turnover rate of more than twice the Government average (25%), with Organisational Executives having the next highest turnover at (19%). It should be noted that roles can fall into a number of the above categories and therefore the above figures should be used as a guide only.

The turnover rate for the combined **Uniform Departments** was **5.6%**, noticeably lower than that experienced by the wider Civil Service. The specialisms within uniform roles together with the difficulty of finding comparable employment within the private sector may contribute to this low turnover rate.

The turnover rate for **Teaching Staff** is also similarly below that of the Government average at **4.0%** (when excluding the impact of Supply Teachers who are appointed to cover short-term vacancies/absences).

2022 Employee Engagement Survey Results

The Annual Employee Engagement Survey acts as a barometer to indicate the health of the organisation, in terms of the employee/employer relationship, in a number of critical areas. The 2022 survey was the sixth annual survey conducted for the Civil Service. It provided an opportunity for all Civil Servants to have input on a range of areas that impact their everyday working lives. Returns were received from 3,717 Civil Servants representing a 87% response rate (78% in 2021), an increase of 26% in the participation rate compared to the first survey in 2017. The survey was conducted on behalf of the Civil Service by BigVillage to ensure it is independent, confidential to participants and can be benchmarked internationally.

The headline results for the Civil Service are summarised below and overall show an improving situation, with all areas matching or improving on the 2021 survey results. The overall engagement index compared with last year has improved by 1%.

The survey identified a number of areas of strength with a 90% or higher positive rating, including 95% of respondents confirming their awareness of our vision to be a World-Class Civil Service and 92% confirming they understand how their work contributes to helping us achieve our vision.

This is an increase of 17% and 12% respectively on the 2017 survey results, and reflective of the work that has been undertaken to familiarise employees with the vision for the Civil Service.

Highest positive scoring questions	% Positive	Highest negative scoring questions	% Negative
B63 I am aware of the Civil Service vision to be a "World Class Civil Service"	95%	B36 I feel that my pay adequately reflects my performance	40%
B01 I am interested in my work	95%	B38 Compared to people doing a similar job in other organisations I feel my pay is reasonable	40%
B32 I have the skills I need to do my job effectively	93%	B46 I have the opportunity to contribute my views before decisions are made that affect me	22%
B64 I understand how my work contributes to helping us become a "World Class Civil Service"	92%	B47 I think it is safe to challenge the way things are done in my organisation	21%
B55 I am trusted to carry out my job effectively	91%	B37 I am satisfied with the total benefits package	21%

Pay and benefits continues to feature heavily in the highest negative scoring areas. However, the overall Pay and Benefits score for 2022 increased by 3% over 2021.

Element of Leadership and Managing Change continued to feature within the highest negative scoring areas.

Note: Further details on Civil Servants

Some of the biggest influencers of engagement are around leadership, and the management of change. Management and Leadership Development has been one of the priority goals in the last five years, with heavy investment in developing leaders at all levels across the service. This has manifested itself in continuing increases in the engagement scores for both "My manager" and "Leadership and managing change" with "My manager" reaching 67% in the 2022 survey and "Leadership and managing changes" 58%.

Overall, all of the areas summarised in the survey have improved since 2017.

Glossary

Public Service	The Civil Service and employees of Statutory Authorities and Government Owned Companies, and from January 2021 the Parliament Management Commission. For clarification, this report excludes: (i) Employees from SAGCs that are working overseas contracted to terms and conditions of the resident country. (ii) Civil Service identified for exclusion as outlined below.
Civil Servant	A person employed by the government, but does not include a Member of the Legislative Assembly other than an Official Member, and is a public officer for the purposes of the Constitution. For clarification, this report excludes: (i) The Chief Justice, Judges, Magistrates, His Excellency the Governor; (ii) FCO staff within the Governor's Office and staff working overseas contracted under terms & conditions of the resident country (Department of Tourism and UK Office). (iii) Student Interns (classified under the designation "Office Support Assistant") who are appointed on short-term contracts (under 3 months) during school/university non-term periods. Data on Student Interns excluded under this category: Jun 2016 - 52 Jun 2017 - 41 Dec 2017 - 7 Dec 2018 - 18 Dec 2019 - 18 Dec 2020 - 58 Dec 2021 - 51 Dec 2022 - 14 (iv) PWD Apprentices (classified under the designation "Facilities Support Technician III") who are appointed on short-term contracts as part of the PWD commitment to developing Caymanians to enter the local construction industry. (v) Members of the Cayman Islands Regiment.
Employee Type	Describes the terms and conditions that an employee is retained on. Under the Public Service Management Law (2018 Revision) and Personnel Regulations (2019 Revision), employees can be employed either as Salaried Staff who are paid monthly or Wage Workers defined as "a staff member whose remuneration is calculated at an hourly rate".
Number of Employees or Headcount	The number of individuals. Where an employee holds two distinct jobs they are included in the totals twice, as they may be working in two different departments and should appear in both sub totals.
Department	The information presented at department level relates to the various cost centres that constitute a department. Where a Ministry or Portfolio appears listed as a department this does not mean the whole Ministry/Portfolio. It relates to those cost centres that fall under the Ministry/Portfolio administration (Core Ministry).
Pay Grade	Describes the remuneration band an employee is assigned to. Salaried staff are paid on grades A to R, where A is the highest grade and R the lowest. Where a high-ranking position lies outside the regular grading structure, the positions have been categorised under grade A for ease of classification. Employees remunerated hourly, referred to as Wage Workers, are paid on grades GAA through GFF where GFF is the highest grade and GAA the lowest.
Nationality	Describes whether an employee is Caymanian or non-Caymanian.
Country of Recruitment	Describes whether an employee was recruited on-island or from overseas.
